

# Help us give 200,000 homes a FREE video of the Easter message!

## In Three Days Pop Video Easter Outreach Campaign 2013

On the 3rd March, Tara Mathew releases her single and video, **In Three Days**, available through all major music outlets, which has already been featured on the ITV six o'clock news!

Through this release, many young people (maybe for the very first time) will learn about the resurrection from the video being shown in nightclubs, pubs and on music television channels across the country.

We are also proud to be working in association with **The Real Easter Egg** and are giving away a **FREE** download of the **In Three Days** video with each of the 180,000 Easter Eggs that will be sold. With its associated social media campaign, we hope the figures will exceed 200,000.

You can help take this figure even higher by forwarding the **free** download link to all of your friends and encouraging them to send it on to anyone they know that might benefit from seeing the video.

This is a pop song with a tasteful MTV style pop video that will appeal to the younger generation and is an ideal opportunity to introduce them to the real meaning of Easter. You can also download the video to show at youth groups, small groups and church. Also, what a useful resource this will be for school teachers in RE lessons at Easter!

Get involved in spreading the Easter message by just forwarding the following link to everyone who might enjoy the video, or be able to make use of this great free resource.
